

9 Great Features OF THE new **BLANCHET BUTTER MOULDING and WRAPPING MACHINE**

RECEIVED
OCT 25 1948
Division 5 Paper No.

- ✓ Two men, operating the Blanchet can mould and wrap easily 1500 lbs. of butter per hour.
- ✓ The butter is moulded into the paper. It is not touched by the mould or by hand.
- ✓ The butter is moulded direct from the churn. It does not have to cool in cold storage.
- ✓ The Blanchet needs only half the floor space required by ordinary moulding machines using a conveyor table for hand wrapping.
- ✓ The weight of the butterprint is accurately controlled.
- ✓ The Blanchet is absolutely sanitary and easy to keep clean.
- ✓ All moving parts outside the machine are made of Stainless Steel or of bronze with tin coating.
- ✓ The cast iron body is finished in smooth white enamel.
- ✓ The Blanchet costs less than half the price of most other moulding and wrapping machines now on the market.
